Program Outcomes for Early Childhood Education

- Create and facilitate healthy, respectful, supportive, and challenging environments and opportunities in which each and every young child can explore, develop, and thrive, using theories of child development and growth.

- Demonstrate communication that values diversity and partnership.

- Identify the uses of observation tools and developmentally appropriate assessment methods to guide program planning.

- Evaluate activities and opportunities based on developmentally appropriate guidelines and early childhood learning standards to ensure enriching, appropriate, and challenging opportunities as well as to guide healthy social and emotional development for each and every child.

- Articulate ethical guidelines and standards of professional conduct.

General Education Outcomes
