Rehabilitation Aide - 2 credit hours

Program

MED107 Rehabilitation Aide 2

The Rehabilitation Aide course is designed to train Certified Nurse Aides to fulfill requirements for efficient rehabilitative care of residents in nursing homes. There is a continuing need for this para-professional in the long-term care setting.

This course will provide students with the opportunity to learn the rehabilitative philosophy, work with departmental organizations, understand the role of the physical therapist, and the proper techniques of body mechanics, transfers, and ambulation.

Upon completion of this course students will receive a certificate of completion from Allen Community College.

The student must be a Certified Nurse Aide with a Kansas certificate who can provide verification of certification.
